PROJECTS

Nexify — Full-Stack Professional Networking Platform
React, Node.js, Express, MongoDB, Socket.IO, JWT, Cloudinary, Brevo

- Engineered a full-stack networking platform with profiles, posts, connections, notifications, and search, driving real-time engagement.
- Implemented secure JWT authentication with OTP verification and password reset, protecting user accounts.
- Designed MongoDB relational data models and integrated Cloudinary and Socket.IO for live notifications.

ShopSphere — Full-Stack E-Commerce Platform
Java, Spring Boot, Spring Core, Spring Security, Spring Data JPA, MySQL, React, JWT

- Built an e-commerce application with a Spring Boot REST backend and React frontend, covering product catalog, search, cart, checkout and order history.
- Applied Spring Core (IoC/DI) and a layered architecture (controller, service, repository) with Spring Data JPA/Hibernate over a relational MySQL schema.
- Secured APIs with JWT-based Spring Security and role-based access for customers and admins, including admin product and order management.

FoodRecipesBlog — Full-Stack Recipe Sharing Platform
React, Node.js, Express, MongoDB, JWT, bcryptjs, Multer, Cloudinary

- Built a recipe-sharing platform with authenticated CRUD, personalized favorites, and detailed recipe pages.
- Secured sessions with JWT/bcryptjs and architected RESTful APIs backed by Mongoose schemas.
- Integrated Cloudinary and Multer for efficient image upload and media management.

Wanderlust — Full-Stack Property Listing Platform
Node.js, Express, MongoDB, EJS, Passport.js, Joi, Mapbox, Cloudinary

- Developed an MVC property platform with authenticated CRUD, owner authorization, and a review system.
- Implemented Passport.js authentication and Joi validation for secure, reliable data input.
- Integrated Mapbox geocoding/maps and Cloudinary storage, enhancing listing discoverability.

Other Projects: ShopYY (E-commerce Frontend), Personal Portfolio, QuizApp, WeatherApp
