PROJECTS

Nexify — Full-Stack Professional Networking Platform

React, Node.js, Express, MongoDB, Socket.IO, JWT, Cloudinary, Brevo

- Engineered a full-stack networking platform with profiles, posts, connections, notifications, and search, driving real-time engagement.
- Implemented secure JWT authentication with OTP verification and password reset, protecting user accounts.
- Designed MongoDB relational data models and integrated Cloudinary and Socket.IO for live notifications.

FoodRecipesBlog — Full-Stack Recipe Sharing Platform

React, Node.js, Express, MongoDB, JWT, bcryptjs, Multer, Cloudinary

- Built a recipe-sharing platform with authenticated CRUD, personalized favorites, and detailed recipe pages.
- Secured sessions with JWT/bcryptjs and architected RESTful APIs backed by Mongoose schemas.
- Integrated Cloudinary and Multer for efficient image upload and media management.

Wanderlust — Full-Stack Property Listing Platform

Node.js, Express, MongoDB, EJS, Passport.js, Joi, Mapbox, Cloudinary

- Developed an MVC property platform with authenticated CRUD, owner authorization, and a review system.
- Implemented Passport.js authentication and Joi validation for secure, reliable data input.
- Integrated Mapbox geocoding/maps and Cloudinary storage, enhancing listing discoverability.
